

My family currently listens to K-Love Radio at home, in the office and in our cars. K-Love is translated over an FM Translator that serves my area and I do not want to lose this valuable signal to a different station that is broadcast over a LPFM. Klove is a station that any person can listen to without the possibility of inappropriate lyrics filling the minds of children.

Klove is a powerful & positive message that needs to be continually broadcast across our great nation. The loss of the Klove signal to an LPFM would be dramatic to the millions of people who gather interpersonal strength from the messages that are broadcast over the Klove signal. Please do not expand the LPFM stations at the cost of wonderful stations like Klove.
